

Marius Ardelean

ASPIRING WEB DEVELOPER

Profile

I successfully managed to combine two important things: work and passion showing myself that I can be self motivated. Energetic and resourceful dancer with several years of experience in art, performing in various locations in different parts of the world. I want professional re-conversion because I know I am capable of achieving great things, and I have a passion for IT and devices since I was a child. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.
